

STARLIGHT U.S. MULTI-FAMILY (NO. 2) CORE PLUS FUND ANNOUNCES SECOND QUARTER RESULTS WITH STRONG RENT GROWTH, OCCUPANCY AND COLLECTIONS

Not for distribution to U.S. newswire services or for dissemination in the United States.

Toronto – **August 10, 2021** – Starlight U.S. Multi-Family (No. 2) Core Plus Fund (TSXV: SCPT.A and SCPT.U) (the “Fund”) announced today its results of operations and financial condition for the three months ended June 30, 2021 (“Q2-2021”) and the period from January 8, 2021 (date of formation) to June 30, 2021 (“YTD-2021”), which includes 92 days of operating activity (the “Initial Reporting Period”) from March 31, 2021, the closing date of the Fund’s initial public offering (the “Offering”).

All amounts in this press release are in thousands of United States (“U.S.”) dollars except for average monthly rent (“AMR”) or unless otherwise stated. All references to “C\$” are to Canadian dollars.

“The Fund was able to take advantage of strong leasing trends during the second quarter by increasing economic occupancy to 94.9% with further increases in physical occupancy to approximately 96%” commented Evan Kirsh, the Fund’s President. “The Fund also achieved strong annualized rent growth of 3.4% during the second quarter. The Fund is well positioned to capture further rent growth as the economic recovery continues. Rent increases on new leases in July 2021 were in excess of 10%.”

Q2-2021 HIGHLIGHTS

- Revenue, property operating costs, property taxes and net operating income (“NOI”) were primarily in line with the financial forecast included in the Fund’s prospectus dated March 19, 2021 (the “Forecast”) for Q2-2021.
- As at August 9, 2021, the Fund had collected 98.9% of rents for Q2-2021 with further amounts expected to be collected in future periods.
- Adjusted funds from operations (“AFFO”) for Q2-2021 was \$953 (Forecast - \$1,022) with the Fund’s AFFO payout ratio at 91.2%, slightly higher than the forecasted AFFO payout ratio of 84.5% (see “Non-IFRS Financial Measures”).
- The Fund declared its first distribution on April 30, 2021 at the distribution rate set out in the Fund’s long form prospectus following the Fund’s first full month of operations in April 2021.
- Subsequent to June 30, 2021, the Fund entered into a six-month variable rate collar contract which allows the Fund to establish a guaranteed monthly exchange rate between C\$1.255 and C\$1.3135 for the conversion of U.S. dollar funds to C\$. The contract was entered into to protect against the potential impact of any weakening of the U.S. dollar on 50% of the amount required to fund the Fund’s monthly Canadian dollar distributions and ensure a more favorable exchange rate for conversion of these funds when compared to the rate used to convert the proceeds from the Offering into U.S. dollars of C\$1.252. The first monthly settlement occurs on August 10, 2021.

INITIAL REPORTING PERIOD HIGHLIGHTS

- The Fund completed the Offering on March 31, 2021 and raised gross subscription proceeds of \$85,408.
- Using the proceeds from the Offering, the Fund completed the acquisition of the Fund's properties on March 31, 2021, which included a total of 675 suites in Denver, Colorado and Orlando, Florida.

COVID-19 IMPACT

On March 11, 2020, the World Health Organization characterized the outbreak of COVID-19 as a global pandemic ("COVID-19"). Although COVID-19 has resulted in a volatile economy, the Fund is well positioned to navigate through this challenging time and continues to undertake proactive measures at the Fund's properties to combat the spread, assist tenants where needed and implement other measures to minimize business interruption. The Fund intends to actively monitor any continued impact COVID-19 may have on the Fund's operating results in future periods specifically as they relate to rent collections, occupancy, rent growth, ancillary fees and expenses incurred for preventative measures in response to COVID-19.

COVID-19 immunization programs continue across the U.S. to varying degrees in different states and jurisdictions with the immunization efforts widely considered to have been successful to date relative to other countries globally. However, there is a risk that delays in the timely administration, changing strains of the virus or reluctance to receive vaccinations could prolong the impacts of COVID-19 and have the potential to cause further adverse economic conditions. According to the U.S. Department of Labor, unemployment rates for June 2021 declined to 5.9% (from a peak of approximately 15% in April 2020) with such employment gains broadly diversified across many industries and driven by the continued economic reopening linked to the successful vaccination program across the U.S. The sustained rollout of the vaccination program is expected to continue to improve economic growth and employment throughout the U.S., although there can be no certainty with respect to the timing of these improvements.

During Q2-2021, key multi-family fundamentals improved significantly including strengthening occupancy, rent growth and collection rates which translated into the operating results of various owners of multi-family properties, including those in the primary markets. These trends, in conjunction with the primary markets exhibiting sustained job and population growth historically as a result of lifestyle choices as well as positive net migration, should continue to support further demand for multi-family apartments in future periods. In addition, previous economic downturns have typically been followed by periods of above market rent growth for multi-family properties in the U.S. Consistent with this trend, the Fund's properties achieved rent growth on new leases in excess of 10% during Q2-2021.

COVID-19 has also significantly disrupted active and new construction of comparable product in the markets the Fund operates in which may create a temporary imbalance in supply of comparable, multi-suite residential properties. This imbalance, alongside the continued economic recovery and improving fundamental statistics, could be supportive of favourable supply and demand conditions for the Fund's properties and could result in future increases in occupancy and rent growth. The Fund believes it is well positioned to take advantage of these conditions should they transpire given the quality of its properties and the benefit of having a tenant pool employed across a diverse job base. Since the COVID-19 outbreak commenced, based on available investment sales information, capitalization rates in the markets the Fund operates in have compressed on average by approximately 50-100 basis points.

Further disclosure surrounding the impact of COVID-19 are included in the Fund Management's Discussion and Analysis ("MD&A") in the "COVID-19" and "Future Outlook" sections for Q2-2021 under the Fund's profile, which is available on www.sedar.com.

(7) Figures represent the YTD-2021 Forecast adjusted for the Initial Reporting Period.

CASH USED IN OPERATING ACTIVITIES RECONCILIATION TO AFFO

AFFO and AFFO per unit for Q2-2021 were \$953 and \$0.09, respectively (Forecast - \$1,022 and \$0.09), representing a decrease in AFFO of \$69 or 6.8%, primarily due to lower than forecasted NOI as well as higher than forecasted distributions paid as a result of the impact of the weakening U.S. dollar in Q2-2021 on the amount required to fund the monthly C\$ distributions relative to the Forecast.

The Fund was formed as a “closed-end” limited partnership with an initial term of three years, a targeted yield of 4.0% and a targeted minimum 11% pre-tax investor internal rate of return across all classes of Units of the Fund.

A reconciliation of cash used in operating activities determined in accordance with International Financial Reporting Standards (“IFRS”) to AFFO for Q2-2021 and YTD-2021 is provided below:
